## SEVEN KILLED AS CLOUDBURST HITS PORTLAND SECTIONS OF FLESH MARK MURDERER'S TRAIL

### NURSE'S PHONE CALLS TRACED BY SHERIFF OF CONTRA COSTA

Parts of Body Found at Rodeo And Bay Farm Island; Two Women Aid Hunt

S. F. CLUES ARE FOLLOWED

Veale Investigates Slain Girl's Visits to Apartments Across Bay

Pieces of a human body scattered over two counties mark the trail taken by the "vivisection" murderer of Bessie Ferguson in a night drive with an automobile filled with gruesome fragments of his victim.

A strip of human flesh, found near Rodeo, Contra Costa county, yesterday by Mrs. A. Delrose is the latest bloody trace of the slayer. The flesh was declared by investigators to be part of a human breast. Other fragments believed to be parts of the murder victim's corpse were found at Bay farm island where parts of the skull were discovered, by Mrs. A. McCartney, who owns a home at Bay Farm Island Point.

Through the slender thread of three telephone calls originating in the Oakland home of the dead mystery woman, in investigators sought to trace her movements during the three weeks before her death, and possibly obtain a clue to the murderer.

Check of the three numbers—all in San Francisco—revealed only one new fact which the officials regarded as important:

Bessie Ferguson rented three separate apartments in as many San Francisco houses, telling in each case the same story of anticipated motherhood. In each case, she failed to take the apartment.

Sheriff R. R. Veale of Contra Costa county and other investigators were tracing the San Francisco phone calls yesterday.

Entrails found by Police Sergeant George Bengler of Richmond yesterday afternoon at the foot of Huntington boulevard had not been determined as those of a human being at a late hour last night. They were probably those of an animal, it was said.

### STORM LEVELS HOMES, HOTEL IN COAST CITY

(By Universal Service)

PORTLAND, Ore., Sept. 5.—Seven persons were killed, ten were reported missing and three were seriously injured in a cloudburst that hit the Great Northern terminal district of South Venetian at 4:15 o'clock this afternoon.

At 9 o'clock tonight 150 workers headed by doctors and firemen were searching frantically for eight persons known to have been swept away by the flood of water.

The cloudburst struck Springwater Canyon, a dry draw, and came upon the stricken section of the city without warning. Five dwelling were crushed like eggshells by the 12-foot wall of waters and the three-story Springwater Hotel was moved from its foundations.

The people in the houses had no chance to save themselves. Most of the dead and missing were from these homes.

At 9 o'clock the water was still six feet deep and greatly handicapped all rescue work.

### MASONS GREET GRAND MASTER, OTHER CHIEFS

The annual official visit to the Masonic lodges of Richmond was paid last night by David J. Reese, worshipful grand master of the Masonic order in California. The event was held in Richmond hall.

McKinley Lodge, No. 347, was the official host to the grand official, as it was the only lodge opened, although nearly every member of the three other lodges of the city was present. Visitors were present from Pinole and Crockett.

Other high officials of the order at the reception were District Inspector Jacob Hughes of Crockett, and State Grand Lecturer Thomas J. Baker of San Francisco.

All three of the honored officials addressed the assemblage, speaking on topics relating to the Masonic lodge. Speeches were also given by local officers and members, including Bert Scoble, Worshipful Master of McKinley Lodge.

Following the lodge room session the evening's activities were transferred to the banquet hall where the members partook of an elaborate dinner. During the repast the talks continued, although at this time they took on a lighter strain and were liberally interspersed with humorous stories.

The committee in charge of the banquet consisted of William Self, chairman; Lester Black, A. W. Clark, A. W. Thompson, H. W. Seaton.

### AUSTRALIA HOP PROPOSED

Canal Zone to Antipodes Route Without Guard Plan of Naval Aviator

(By Universal Service)

SAN FRANCISCO, Sept. 5.—The big Boeing seaplane PB-1, twice prevented from taking off for the flight to Hawaii, will start a 30-hour test flight over San Francisco and bay vicinity at 2 o'clock tomorrow, if was announced here tonight.

The Boeing plane, constructed in Seattle, was to have joined the two PN-9's in the non-stop flight from San Francisco to Hawaii, attempted last Monday, but engine trouble prevented it from participating. Another date for the plane to try the long flight was set for last Thursday, but inasmuch as the guard ships were still searching for the PN-9 No. 1, the flight was postponed indefinitely by the Secretary of the Navy, Wilbur.

Lieutenant Clarence Schildhauer, chief test pilot of the Hawaiian flight, announced today that he would ask permission to make a flight without sea guards from Coco Solo, Panama Canal zone, to Australia and New Guinea.

Such a flight would entail a non-stop hop equal to the distance from San Francisco to Honolulu. The route he outlined included Tahiti, the Fiji Islands and Solomon Islands.

Five days have passed since the PN-9 No. 1 hopped off through the Golden Gate and four days since any word has been heard from her. Twenty navy vessels and a great fleet of merchant ships with submarines and airplanes were continuing the search tonight over a radius of hundreds of miles around the point from which her last communication was sent 300 miles from Honolulu.

Hope that the five men of the missing plane would be found alive dwindled to a low ebb when it was learned the airplane reported seen yesterday, being towed by a sampan off Kauai was a seaplane forced down in its search for the PN-9 No. 1.

### Stephen Dobson, 71, Passes Away

He came to Richmond 18 months ago from his native city, New Orleans. He is survived by his wife, Mrs. Ada A. Dobson of Richmond. ### MORE CONGRESSMEN URGED

Republican leaders in Massachusetts are said to be urging President Coolidge to recommend a reapportionment of the number of congressmen in the various states when he sends his next message to Congress.

The constitution provides that there may be a reapportionment every ten years following the taking of the census, but there has been none since 1911 owing to opposition in Congress to increasing the total number in the House of Representatives. One plan now being urged by those in favor of reapportionment is that the membership of the House be increased from 435 to 485. Under this plan the ratio is 218,986 and no state will lose a member.

Under one plan proposed when the subject was last up in Congress, several states would have lost members. It is said by those who have looked into the subject that there has never been a decrease in House members but once since the foundation of the government and that was in 1843.

Those who argue for the proposed increase in membership claim that the House would still be smaller in proportion to population than in other countries. It is said that there are 707 members of the House of Commons, and 626 French deputies while the membership in the German Reichstag is 423.

Any sort of a reapportionment, however, will doubtless meet with opposition in Congress.

Under the plan proposed the following states would gain members: Alabama, 1; Arkansas, 1; California, 5; Connecticut, 1; Georgia, 2; Illinois, 3; Maryland, 1; Massachusetts, 2; Michigan, 4; Minnesota, 1; New Jersey, 2; New Mexico, 1; New York, 4; North Carolina, 2; Ohio, 4; Oklahoma, 1; Oregon, 1; Pennsylvania, 4; South Carolina, 1; Tennessee, 1; Texas, 3; Virginia, 1; Washington, 1; West Virginia, 1; Wisconsin, 1. All other states would retain their present membership.

### CAN WE GIVE THEM UP?

George Fairchild, publisher and close friend of General Leonard Wood advances the interesting theory that the United States would have no right to cut loose from the Philippines even if it desired to do so. Mr. Fairchild aired his views in the form of a statement issued at White Court where he had gone to deliver a personal message of greeting from General Wood to President Coolidge.

"I do not believe that under the constitution Congress would have the right to relinquish territory once acquired," Mr. Fairchild said. "The islands have been taken over by the United States and we have no right to alienate them unless it were done in war time."

Mr. Fairchild's statement was provoked by an inquiry as to whether he agreed with Representative Charles Underhill, Republican of Massachusetts, who recently called at White Court after touring the Philippines and declared that the country would not be ready for independence for many years to come.

Here is something interesting to think about. Just where in the constitution can you find any provision for giving up territory belonging to America and abandoning citizens of the United States?

Lionel Curtis of London, at the Williamston Institute suggested that the League of Nations be called on to solve the Chinese problem. Who said that an Englishman didn't have any sense of humor?

Even the most modest school teacher going abroad can do what the father was never able to do—eat dinner in Paris.

Maybe the reason Abd-el-Krim has done well so far is that all the military experts are on the other side.

Statistics show that Americans eat sixty pounds of red meat every day, which is not at all encouraging for the ultra pacifists.

Some people hope every day will be Sunday by and by, and others are afraid that it will.

Here's some striking news for today: About 500 matches are lighted every second in the United States.

These may be reduced next year. That's only natural. They can't raise them if we can't.

An idle rumor can cause as much trouble about the house as an idle rumor.

Why shouldn't the weather be discussed more often than any other subject? It's the closest to us.

Velvet Brocaded Georgette Frocks Have Leaped to First Place Among New Evening Attire.

For the formal evening gown this autumn you have three sorts to choose from—the gown of rich metal lame, usually in simple outline, the gown of georgette or chiffon richly encrusted with bead or bugle trimming or with metal embroidery, or the gown of the new velvet brocade.

The advantage of newness is that the velvet brocaded chiffon gowns undoubtedly possess. Sometimes the velvet brocades show the use of beading to add gorgeness to the already rich fabric.

Sometimes too, a border or band of fur is used on the velvet brocade that is designed for autumn and winter wear. Among the most interesting of these velvet brocade frocks are those of white.

There is a wide possibility in the use of this type of fabric, since it can be combined with chiffon to match the chiffon background of the brocade. Sometimes the brocade velvet is worked in as a border on the chiffon and this type of material lends itself to all sorts of interesting draped and circular treatments.

Some of the new velvet brocaded georgettes or chiffons show as wide

and vivid a play of color as did the printed georgettes and crepes that every woman wore earlier in the summer. And the makers of these rich fabrics have been very quick to respond to the new feeling for modernistic designs in these brocades. They no longer cling to the conventional, time-honored designs that have been associated with brocades for so many years, but give us patterns that show the clever mingling of geometrical and naturalistic designs that seem to us most up to date.

With these new and elaborate brocades there is of course great danger of over-elaboration, and even now one sees evening frocks of elaborate and colorful velvet chiffons that really need no trimming whatever, laden down with bead encrustations, metal ornaments, fringe or other trimming, so that the effect is anything but graceful.

In the sketch is a frock of rose chiffon brocaded in a deeper rose velvet, with a large pink rose as the only trimming.

Velvet brocaded chiffon gowns

pad of soft cloth, soak it thoroughly, and lay on the bruise. Leave it there for a day and a night, wetting it again when it becomes dry.

If this method doesn't work, perhaps this one will: Wet the dent, then cover it with ten thicknesses of wrapping paper which have been soaked in warm water. Now place a hot iron over the paper until it is dry. Polish the place where the dent was carefully with furniture oil.

### COMPOTE OF FRUIT

Two sweet oranges, two bananas, one-half pound of grapes, one-half pound of prunes, three-fourths pound of sugar.

Soak the prunes overnight in cold water. Put them—with the same water—into a covered dish, add a quarter of a pound of sugar, and bake in a slow oven.

While they are cooking, put the remaining half pound of sugar into saucepan with one pint of water, and let it boil for a quarter of an hour.

In the meantime, peel the oranges (without breaking the juice cells) and carefully divide them into sections, place them in a glass dish with the grapes and sliced bananas, pour the syrup over them, and when the prunes are ready mix those in too.

### MARYLAND CHICKEN

Clean and cut up a chicken. Sprinkle the meat with salt and pepper and then dip in flour. Beat an egg slightly and add one tablespoon of cold water to each egg; dip the chicken in this.

Allow chicken to drain and then dip in sifted crumbs. Place in a well-greased pan and bake in a hot oven for about one-half hour. Baste often with melted fat. Serve with cream sauce.

### ABOUT THE FURNITURE

There are always all sorts of little or big things in the nature of repairs that need doing about a house.

Lucky is the woman who can do some of them herself.

Suppose, for instance, there is a bruise in the surface of a chair or table. Here's how to go about making it smooth again. Make a thick

flour, one half cup milk, one-half teaspoon salt, three eggs, one cup grated cheese, cayenne.

Stir the flour in the butter while heating in a saucepan. Pour the milk slowly and let it come to a boil; add the seasoning, the yolks of eggs well beaten, and the grated cheese.

Pour into a bowl and let cool.

When cool, stir in the whites of eggs beaten stiff. Pour into small pans, or one shallow pan, and bake in a moderate oven about twenty minutes.

# SALES MANAGER OF DODGE BROS. BOATRACE PILOT

## FUN BILL OPENS PARAMOUNT WEEK

Paramount Week opens at the California Theatre today with a picture and variety bill that promises to be one of the biggest laugh programs ever offered to Richmond theatre fans.

Announcement was received yesterday by Chas. Courtright, Dodge Bros. dealer, that Fred L. Sanford, General Sales Manager of Dodge Brothers Inc., had consented to pilot "Miss Syndicate" in the Competition for the Horace E. Dodge Memorial Trophy, and will also drive the same boat in the sweepstakes event of the "Detroit races September 6, 7.

"Miss Syndicate" is the speed boat built last year by the Horace E. Dodge Boat Works for a syndicate of 90 Dodge Brothers Dealers. The Dealers took into their own hands the matter of competing for the Dodge Memorial Trophy when it was learned that Mr. Dodge, the donor, could not be altered in his refusal to compete for the trophy himself.

He had offered it as a memorial to his father, the late automobile manufacturer and pioneer in speed boat racing, and did not feel that he himself should participate in the competition.

At the instigation of these Dealers, however, he consented to build a boat and the result is "Miss Syndicate," said to be one of the finest racing craft produced in years. The designer was George Crouch, who built many of the famous Gold Cup winners. Mr. Couch is now associated with Dodge Boat Works.

Information that Mr. Sanford will drive the boat in the two foremost races of the year adds additional interest to an already colorful event. "Miss Syndicate" will be in competition with some of the fastest boats in the world.

The Dealer's syndicate, however, has the utmost confidence in Mr. Sanford's ability to bring her to victory as he is a pilot of unusual skill, having driven fast boats of his own for a number of years.

# BUICK HOLDS LEAD IN SALES OF NEW SIXES

Buick remains in the lead in the sale of six cylinder cars in California, according to figures contained in the Motor Registration News of August 15, 1925. These show that during the first seven months of 1925, 6027 Buicks were registered in California. The second highest selling six registered 5885 cars; the third, 5632, and the fourth, 5553.

Buick sales for the first seven months of the current year show a gain over those of last year, 6027 Buicks being registered this year, against 5861 for the same period of 1924.

In Northern California, Buick again led all six-cylinder makes in sales for the month of July, with a total of 395 registrations as compared with 366 for the second six-cylinder car on the list, 355 for the third and 302 for the fourth.

Buick also led all other sixes in July registrations for San Francisco. With the arrival of the new 1925 Better Buick models, with their many important mechanical improvements, and with the announcement of the new and materially reduced schedule of Buick prices, even greater sales records are anticipated for the on-coming months by C. C. Kratzer, Buick dealer here.

## REDUCED PRICES CREATE GREAT HUDSON DEMAND

Scenes actually filmed in the famous San Quentin Prison of California are used in "Blind Hearts," a thrilling story of love and sex now at the Richmond Theatre.

It was necessary for Rowland V. Lee, who directed the picture, to take the company to San Quentin a journey more than 600 miles from Los Angeles. Once inside the dull, drab walls of the prison it was easy to take the scenes as the prison has a powerful generating plant which was able to supply more than enough electricity for the studio lights, which also had been transported from Los Angeles.

With all lines of new cars having been announced, he continued, the public is in an excellent position to judge comparative values, and to reward with a great volume of business those manufacturers who present most value for the money.

"Immediately after the Hudson-Essex price reduction was announced," said Mr. Strom, "we began to receive inquiries and orders for cars in great numbers. The late-summer-early fall season is ordinarily rather slow normal for motor cars as well as other businesses, but in the case of the Hudson-Essex price reduction we might have thought we were in the midst of a spring rush. It was the best business 1925 has given us.

"It was evident that the motorizing public had made up its mind that Hudson-Essex were the values it had waited for. The men and women who called at our place of business came in to buy rather than simply to inquire and shop around.

"In our opinion the automobile battle of 1926 will be fought out on the basis of values. There is probably no standard motor car today that is capable of pleasing a great number of owners. That being true, the question in the mind of the average man or woman is buying a car is to invest his money so as to obtain the best general all-around value.

## A Car Unequaled In Looks, Price and Results

Consider the Chrysler Four from any standpoint—of design, of craftsmanship and of performance—and you readily find the reason for the sweeping public demand for it.

Put the Chrysler Four through its paces. Drive it in the thickest of traffic and you will be delighted by its lightning-like, effortless acceleration. Chrysler hydraulic four-wheel brakes, now first offered on a car of this price at slight extra cost, complete the feeling of utmost safety and ease of handling.

Take the open road. Step the Chrysler Four up to your speed and keep it there. You discover a tremendous energy and stamina, coupled with extreme quietness of per-

formance and marked absence of vibration. You will find that the Chrysler Four gives and does what no other car at its price can equal in power, speed, fuel mileage, acceleration, smoothness, ease of riding and handling.

All this is the result of a new application to proven four-cylinder principles of the same scientific engineering, and the same precision of manufacture with the same prodigal use of fine alloy steels, so characteristic of its companion car, the Chrysler Six.

Come in—we are eager to have you get acquainted with this most remarkable value in the industry.
